PROFESSIONAL EXPERIENCE

Sales Data Analyst | Juhayna Food Industries

Feb 2025 – Present

- Strategic Analytics: Manage and analyze daily sales data for 100+ routes across all trade channels to monitor performance and coverage.
- BI Development: Build and maintain automated Power BI dashboards to track KPIs for sales volume and route productivity.
- Efficiency Gain: Reduced report generation time by 4+ hours daily through a unified Power BI platform, enabling faster decision-making.
- Data Governance: Ensure 100% accuracy by reconciling sales data with inventory and delivery records in collaboration with warehouse teams.

Pharmacy Assistant Manager (Data & Ops) | Luxor, Egypt

Jan 2015 – Jan 2025

- **Inventory Impact:** Designed an Excel-based tracking system that reduced expired inventory by 30%.
- **Workflow Automation:** Developed an automated accounting and reporting workflow to monitor daily profitability and purchases.
- **Strategic Sourcing:** Increased supplier engagement by 20% through data-driven turnover and trend analysis.

KEY PROJECTS & IMPACT

- **SAP Shipment Automation:** Automated manual shipment creation in SAP, saving 1.5 hours per branch daily (90% time reduction).
- **Automated Target Allocation:** Built a Power Query model incorporating 12 months of historical data, reducing processing time from days to hours.
- **Production Fair-Allocation Tool:** Developed a dynamic system for fair stock allocation during shortages, eliminating departmental conflicts.
- **SAP Automation:** Automated manual sales orders creation in SAP, saving hours daily and decreasing time and effort required to hire and train new sales supervisors.
- **Maintenance Automation:** Automated manual maintenance reservation in SAP and trigger the process by specific time daily to avoid chillers maintenance obstacles.
- **Power bi report:** Building the first power bi report in the company to unify the daily reports across all sales channels for upper Egypt area while maintaining the row security level required to preserve data security and privacy.
